Featured Projects

Project 1: My First Web Page

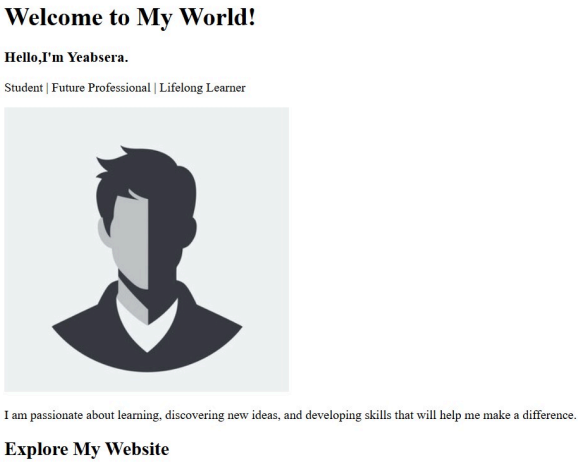

My first attempt at building a web page with HTML.

This project helped me understand how HTML structures headings, paragraphs, links, and images.

What I learned

- Creating a basic HTML document
- Using headings and paragraphs
- Adding links and images

Project 2: Personal Website

A website documenting my learning and development.

This website brings together my background, skills, projects, interests, and contact information.

Website sections

1. Personal information
    - Biography
    - Education
2. My work
    - Projects
    - Achievements

Achievements

- **Learning achievement:** Completed my first HTML page.
- **Academic achievement:** Completed my first semester of university courses.
- **Personal achievement:** Built my own personal website from scratch.

My Next Goals

My future projects will help me develop these abilities:

- Build a complete website with several connected pages.
- Learn CSS to improve the appearance of my website.
- Learn JavaScript to make my website interactive.
